

**MINIMUM SPECIFICATIONS FOR 80201-AHBI 2007 AIR COMPRESSOR**

Quantity of one (1) Boss Model 80201-AHBI 2007 modular above deck hydraulic drive air compressor (s) to include the following as standard equipment:

- All components are frame mounted, plumbed, and wired. The entire unit is shipped ready for mounting.
- Boss oil flooded, rotary screw air-end designed to produce up to 185 CFM @ 110 PSIG continuously.
- Overall Dimensions: 26"W x 31 1/8"H x 35 1/4"L
- Weight (dry): 600 Lbs

Delivery @ 110 psig	<u>80 cfm</u>	<u>100 cfm</u>	<u>125 cfm</u>	<u>160 cfm</u>	<u>185 cfm</u>
Flow @ 2750 psig	17 gpm	22 gpm	26 gpm	34 gpm	43 gpm

- Gear set incorporated into air-end.
- Two-year warranty on the air-end.
- Integrated receiver tank with filler port and drain valve. External mounted tank not acceptable.
- Self-contained remote mount separator element with easy access spin-on housing. No exceptions.
- Hydraulic motor coupled to air-end.
- Remote mount, self-contained designed cooling package with automatic thermal sensing control to ensure proper operating temperatures.
- Replaceable spin-on compressor lubricant filter with safety bypass and 25 micron rating.
- Two-stage, dry-type air intake filter with replaceable filter and gravity evacuator.

- Instrumentation to include: hourmeter, compressor lubricant temperature gauge, and air pressure gauge.
- Safety devices to include: minimum pressure device, compressor lube hi-temp and hi-pressure safety system, automatic blowdown device, high-pressure relief valve, and necessary warning and information decals.
- Optional 14 gauge aluminum canopy with easy access front panel.
- Operation, parts and maintenance manual.
- Installation by factory authorized and trained distributor.
- Optional rear bulkhead connections.
- Optional hose reel feed and bracket.
